PROFILE

Highly skilled and motivated Full Stack Engineer with a solid track record in front-end and back-end development. Committed to delivering efficient, scalable, and maintainable code, I excel in contributing to the success of both early-stage startups and large technology companies. With a diverse portfolio, I have successfully developed various websites and applications, spanning from e-commerce platforms and booking systems to personalized CRM solutions.

My proficiency extends to utilizing a wide range of programming languages, frameworks, and tools to architect robust and user-friendly solutions. In addition to technical expertise, I possess strong problem-solving abilities and a keen eye for design, ensuring that the products I develop not only function flawlessly but also provide an exceptional user experience. I am passionate about staying updated with the latest technologies and best practices in the field, allowing me to continuously innovate and optimize my development processes. As a collaborative team player, I thrive in dynamic environments where I can leverage my skills to drive projects forward and achieve business objectives effectively.

WORK EXPERIENCE

Full Stack Developer:

Summary:

Experienced Full Stack Developer proficient in creating dynamic and responsive web applications using cutting-edge technologies like ReactJS. Skilled in both front-end and back-end development, with a passion for crafting seamless user experiences. Dedicated to staying updated with the latest trends and technologies in web development to deliver innovative solutions.

KEY SKILLS:

- Proficient in building modern web applications using ReactJS and other front-end frameworks.
- Strong expertise in back-end development, including server-side scripting languages like Node.js and Python.
- Experienced in database management with SQL and NoSQL databases such as MongoDB and MySQL.
- Skilled in deploying and hosting web applications on various platforms, ensuring scalability and reliability.
- Capable of integrating third-party APIs and services to enhance application functionality.
- Experienced in version control systems like Git for collaborative development and code management.
- Knowledgeable in responsive web design principles and cross-browser compatibility testing.

EXPERIENCE HIGHLIGHTS

- Developed and deployed several web applications from concept to production, ensuring high performance and scalability.
- Implemented RESTful APIs for seamless communication between front-end and back-end systems.
- Collaborated with a team of developers in the successful completion of complex projects, meeting tight deadlines and exceeding client expectations.
- Ensured code quality and adherence to best practices.
- Collaborated with UX/UI designers to translate wireframes and mockups into functional web interfaces, focusing on user-centric design principles.
